You are cordially invited to

Saving Families Worldwide's

Inaugural Pink and Blue Gala

When: Saturday, October 26, 2019

Location and Cost to be determined

The purpose of this Gala is to raise awareness and funds for Infant and Child Loss in America. 1 in 4 mothers will lose an infant within the first year of birth. Many infant deaths are preventable with pre-natal education. Our goal is to not only educate individuals but to also assist those 1 in 4 families that will lose their baby. We will give them uninterrupted and priceless time with their child that they will never get again. How will we do that? I'm glad you asked. A Cuddle Cot is a machine that was designed to keep a baby's skin cool once she passes. This will allow the family to spend uninterrupted time with their baby. Without the Cuddle Cot, valuable family time and memories are lost. The baby will need to be transported away from the family so her skin can be cooled to prevent the baby's skin from deteriorating. Hospitals don't feel the Cuddle Cot is a medical necessity, therefore they don't purchase these machines. These machines are a medical necessity to families affected by the loss of a baby. Uninterrupted time with their baby assists in the mental health and acceptance of the circumstances for the family. This time can help families psychologically and emotionally. Out of more than 85 hospitals in the Houston area, only 1 hospital in the Houston area currently has a Cuddle Cot to assist families who experience this type of loss. Some proceeds from this Gala will be used to purchase Cuddle Cots for local hospitals. Can we count on your support?
